

April 25, 2021

To whom it may concern:

I am a colleague of Josiah Smith and Dr. Murat Torlak at The University of Texas at Dallas. I have assisted in English editing for their work "An FCNN-Based Super-Resolution mmWave Radar Framework for Contactless Musical Instrument Interface" to fill the requirements for the final submission. I certify that this article is has undergone thorough English editing and requires no further English editing.

Sincerely,

Jayson Van Marter
